

Income Driven Account Adjustment Program

EXTENDED DEADLINE
07/1/2024*

If you have Federal Student Loans, you will not want to miss out on the Income Driven Account Adjustment Program.

If your loans are in good standing AND you are enrolled in an Income Driven Plan before before 7/01/2024 you will receive FREE payment credit for:

- any months in which you were in a repayment status,
- 12 or more months of consecutive forbearance;
- 36 or more months of cumulative forbearance;
- months spent in economic hardship or military deferments after 2013;
- months in deferment (with the exception of in-school deferment) prior to 2013;
- any time in repayment on earlier loans prior to consolidation of those loans.

If you're not sure if your loans are eligible, or would like additional information, you can sign up for a **free student loan webinar & free student loan review** with Silver Lion Student Loan Advisors.

***Please note that submitting an application alone does not guarantee any benefits under the account adjustment program. In general, it takes at least 60 days to convert unqualified loans to qualified loans. If you want your loans to be eligible for this benefit, take action on your loans on or before April 30, 2024.**
